

Dear friends and members of the Literary Club,

we inform you that the meeting of the Literary Club "The Landscape of youth poetry" will take place on Monday, 23rd of April 2007, at the Exhibition Centre "Constantin Brancusi" (Bd. Stefan cel Mare 3, Chisinau), in the small gallery, that hosts the international contemporary art exhibition "Landscape" organized by Oberliht Association (<http://www.oberliht.org.md>).

the program:

- Workshop of creative writing
- Reading of the texts
- Soup testing
- Atmosphere

The meeting will begin with an experiment in which those present will be involved. Taking as a starting point the exhibited pieces of art we will write literary texts related to the chosen art work. Everybody is invited to write ad hoc a TEXT during half an hour, inspired from the exhibition, despite the fact if you are a poet, artist, journalist or just a visitor. The meeting will culminate with the reading of all these texts. The texts will be presented in front of the chosen art work so that the audience could identify the relation between these two ways of expression. We will surely discuss the results of the creative writing workshop organized in common by the visual artists and the writers in a less conventional context like an art exhibition. More about the exhibition can be found here: <http://oberliht.org.md/peisaj.html>

In the second part of the meeting the members of the Literary Club will read the texts that they prepared at home.

The evening of 23rd of April will culminate with a soup testing – as main menu will be served a soup prepared by the participants on the spot with the ingredients collected from the work of Vladimir Us "Kitchen landscape, 2007", exhibited in the gallery and conceived from the very beginning to be consumed at the end of the exhibition. We will be literally consuming contemporary art.

We look forward to see you all. We can guarantee you a pleasant and creative atmosphere.

The exhibition "Landscape" is on view till 23 of April 2007 at the Exhibition Centre "Constantin Brancusi", UAP, the small gallery
